Fay Import Last Job By Date

The purpose of this document is to execute the Fay import script by a specific date.

Step 1) Connect to the Civic VPN and RDC into the appropriate environment.

Open a web browser and enter the following URL.

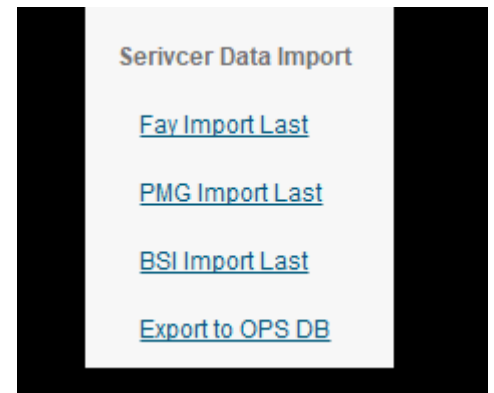

PROD: fmp://a-appfm-prod.civicfs.com/Asylum

Step 2) Log into Asylum using the "admin" account and password stored in thycotic.

Step 3) Click on the "Menu" button in the upper right corner.

Step 4) Under the "Import / Export" section click on "Fay Import Last":

Please enter a date

Date:

6/13/2022

OK

Step 6) You can end the RDC connection but do not close FileMaker Pro.
