

IT_DatabaseTracker
By Joseph Arzate
Version 1.3

Overview

The purpose of this document is to provide an overview of the solution outlining the main modules and sub-sections.

Modules:

- A) Dashboard – Displays an overview of all the modules available.
 - a. Databases recently launched
 - b. Users recently added
 - c. Databases recently deployed
 - d. User Permission recently changed
 - e. AD Verification – Windows only feature to export active users and queries WM AD to identify users no longer active. Used to update the Users DB to Inactive.
 - f. Reports
 - i. Active Users Export

* Wherever AD is referenced (AD Users, AD Privilege Sets etc.), please be aware that this is historical data and no longer being used.

Recent Databases Launched			Recent Users Added		
Database Name	Server	Launch Date	User Name	Email	Date Created
MPO_2023POSystemPTSO	FPE-02P	12/29/2022	GokalanPlante, Ozen	ozen.gokalanplante@wbd.com	11/29/2023

IT_ComplianceTracker	FPW-01P	3/9/2022	Omar, Shanise	shanise.omar@wbd.com	9/12/2023
PROG_CSuttonPhoneSheet	FPW-02P	2/9/2022	Melendrez, Maria	Maria.Melendrez@wbd.com	7/12/2023

Recent Databases Deployed			Recent User Permission Changes		
Database Name	Server	Date Modified	User Name	Email	Date Modified
PDPQ_BudgetTracker	FPE-02P	1/27/2023	Rodriguez, Noah	noah.rodriguez@wbd.com	1/4/2024
FIN_ProdCostReporting	FPW-01P	11/10/2022	Love, Jamie	jamie.love@wbd.com	12/4/2023
DOC_Shows	FPE-01P	10/19/2022	GokalanPlante, Ozen	ozen.gokalanplante@wbd.com	11/29/2023
BA_SportsEquipLoanPool	FPE-01P	10/7/2022	Baroody, Andrew	andrew.barood@wbd.com	11/29/2023
BA_SportsProd_CrewHire	FPE-01P	10/7/2022	Conroy, Clare	clare.conroy@wbd.com	11/29/2023

- B) Database – Stores and displays information about the FileMaker Database files being tracked and monitored.
 - a. Description – Description of the database and use.

- b. Deployment History (table: Deployment_History) (1 : ∞) – Date of deployment to BETA, PROD and details of the items released.
- c. OKTA Users (table: Book) (1 : ∞) – Users associated to the database via OKTA
- d. AD Users (table: PRiV) (1 : ∞) – Users associated to AD
- e. Notes – Miscellaneous notes of the database and it's use.
- f. OKTA Groups (table: DBsOKTA) (1 : ∞)– Privilege Sets associated with the database

Reports

- Export Active Users – Exports an Excel of all users that are “Active”

Utility

AD Verification – Windows Only feature. Please refer to the document “Managing Users in IT_DatabaseTracker v0_02” located in the “How To Documents”.

Server Side Script

There is a daily job that is executed from FileMaker Server, that will ‘Refresh’ active user counts. This script contains the following settings:

Schedule Type: FileMaker Script
Schedule Name: IT_DatabaseTracker user count
Database: file:IT_DatabaseTracker
FileMaker Script: Refresh Active User Count Server
Script Parameter: None
Frequency: Daily

Repeat Every day, Once per day starting at 23:30

The column ‘z_count_active_privs_display’ is updated with the current count of the result of a formula. A log is created of the results of the changes in the HOME table within the “z_count_active_privs_log” columns.
