Ocean Direct – Login Flow Chart

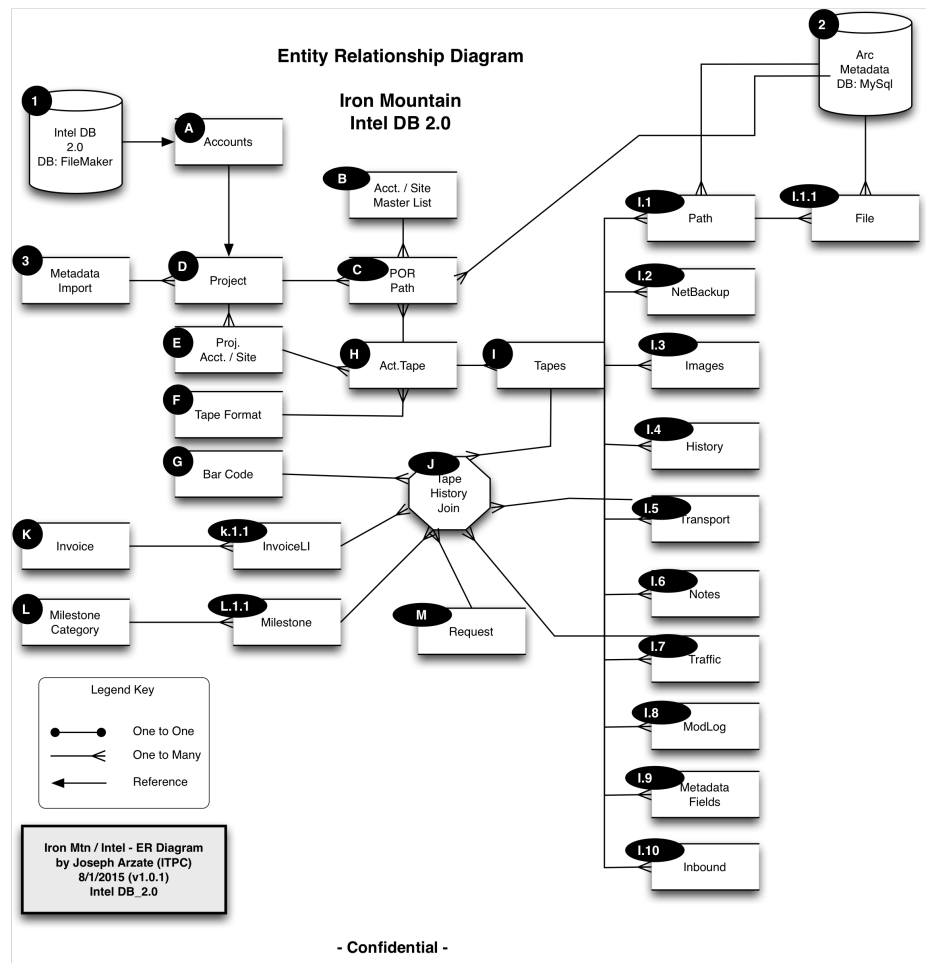

Iron Mountain Entertainment Services, Hollywood CA 2015 – Present

Iron Mountain Entertainment Services, archives, stores, media and converts them to a digital format. The project consisted of completing a FileMaker Pro database to track, extract, backup tape media to a digital file.

Some of the main modules where:

- Media
 - Accounts
 - Project
 - Metadata
 - Tape Format
 - Invoice
 - Milestone Category / Milestone / History
 - Path
 - History
 - Transport
 - Notes
 - Traffic
-
- Database administration, development, maintenance, documentation
 - Managed, deployed FileMaker Pro on both Windows & Mac Server version 14
 - Reports
 - Created a report manager and utility to extract information
 - Development
 - Created a environment where FM Server hosted on a Mac could communicate with Unix
 - Application / Software Support / Training
 - Provided training to end users
 - Troubleshooting
 - Reverse Engineered previous developers code to update / correct "Bugs"
 - Optimized code for speed improvements

Iron Mountain – ER Diagram

Trailer Park, Hollywood CA 2014 - Present

Ocean Direct LLC., consolidates / procures food for civil and military. Overhauled foundation updated and developed complex new modules to satisfy client requirements and complex intercompany "Affiliate" relationships. Highlights included a fully Integrated Accounting Quickbooks pushes utilizing a 3rd party plugin FMBooks. Utilized a push server to monetize connectivity issues. Reversed engineer existing code to expand complexities and capabilities. Product Brand Affiliate complexities.

Some of the main modules included:

- Purchase Order – EDI PO System using gateway
 - Sales Order – Included "Core" to "Affiliate" complexities
 - Load Plan – Created a way to Load Plan based on product availability
 - Inventory – Track Qty and "Lots". "Lot Transfers"
 - Fulfillment – Inventory qty fulfillment assignment.
 - Lot Tracking – Inbound and Lot traceability
 - Product Labels – Barcode Zebra label printer integration
 - Pallet tracking – Pallet assignment and container location
 - Shipment tracking – Manage containers on truck and ship
 - Invoicing – Create multiple invoices based on Client and Affiliate
 - Billing – Create Quickbooks billing to "Affiliate" through Quickbooks
-
- Database administration, development, maintenance, documentation
 - Managed, deployed FileMaker Pro & Server versions 9-15
 - Reports
 - Wrote custom XSLT Style sheets to create Microsoft Word / Excel client and internal reports
 - Created a "Report Manager" to allow a user to enter and find key data points from the system
 - Created a web based version of the "Report Manager" for quick accessibility
 - Development
 - Converted entire solution to Anchor Buoy methodology
 - Updated and developed all User Interface screens
 - Application / Software Support / Training
 - Provided training to end users
 - Troubleshooting
 - Reverse Engineered previous developers code to update / correct "Bugs"
 - Optimized code for speed improvements
