Thank you, Joseph. I appreciate all of the work over the past two years, especially the focus on automations.

You know where to find me if needed.

Take care!

Jadine

Subject: Final Tasks Completed

I've completed updating the documentation for both the password rotation and the Utility server. Both saved in the 'Shared' drive.

Chris provided me with instructions on returning the laptop to FedEx and I will do so tomorrow.

It was a true pleasure working with you both, and I once again appreciated your professionalism and in general, the opportunity that was given to me and my family for the past two years.

Go Dodgers! 🙏
